

[widgetkit id=4]

We install/replace from simple concrete sidewalks, driveways, patios, garage slabs, entrances, and stairs to fine multi-colored concrete, exposed aggregate, stamped concrete, staining, topping & leveling, and overlay. We also do Ardex. You can choose from broom, sand, steel trowel, garage, exposed aggregate, sponge and rock salt finishes from our sample section.

We can provide you up to 3 18"x18" samples Free of Charge and delivered to your house.

### Davis Colors Charts

The image shows a color chart for flat works, organized into two main sections. The top section is a grid of color swatches, and the bottom section is a technical document titled "MIXING COLORS FOR CONCRETE".

**Color Swatch Grid:**

- Row 1:** Three swatches in shades of red and maroon.
- Row 2:** Five swatches in shades of orange, red, and brown.
- Row 3:** Five swatches in shades of brown and tan.
- Row 4:** Five swatches in shades of grey and dark brown.
- Row 5:** Five swatches in shades of grey, black, and green.

**MIXING COLORS FOR CONCRETE (Mischelbau):**

This section contains detailed text and a small grid of color swatches. The text includes:

- Wichtig:** A warning section about the importance of color consistency and the effects of weathering.
- Grundregeln:** A list of basic rules for mixing colors, such as "Less is more" and "Always test on a small area first".
- Grundrezepte:** A list of basic recipes for mixing colors, including "Basic Grey", "Basic Brown", and "Basic Red".
- Farbgebung:** A section on color selection, discussing the importance of the overall color scheme and the use of color charts.
- Farbgebung:** A section on color selection, discussing the importance of the overall color scheme and the use of color charts.

The bottom left corner of the technical section features the logo for "DAVIS COLORS" and contact information.
